

## ALLIED PREMIERS DISCUSS HARSHER MOVE IN GERMANY

All Agree That Pressure Must  
Be Used in Forcing Observance  
of Treaty.

**SAV. NEWS,** April 19 (Associated Press.)—The Interallied Supreme Council began its formal sessions today. The meeting was opened punctually at the hour set, 11.00 A. M., in the Villa Devauchan, on the hills to the northwest of the main town.

While the Turkish question was on the programme for first consideration by the conference it develops that there already has been discussion over the question of enforcing the execution of the Treaty of Peace with Germany. There seems no doubt that the Premier is agreed a joint declaration must be sent to Germany requiring her to fulfil the conditions of the Versailles Treaty, and that if she does not do so the Allies will take measures to compel her. The Premier has not yet agreed upon the form of pressure to be used should Germany continue negligent.

Premiers Millerand, Nitti and Lloyd George, after their meeting with Foreign Minister Scialoja of Italy, Philippe Berthelot, Political Director of the French Foreign Office; Earl Curzon, British Foreign Minister, and numerous secretaries yesterday at the Villa Devauchan, met again late in the afternoon at Premier Nitti's hotel. No outsiders were present, with the exception of three interpreters.

They were agreed without a moment's discussion that Germany should be told in the most positive manner that she must observe the treaty; that the Allies were firmly united upon this and that she should be warned of the punitive consequences should she refuse or fail to observe the treaty.

Premier Lloyd George suggested economic pressure. Premier Millerand is described as having said that such pressure, without the use of naval or military aid, would in effect be no pressure at all.

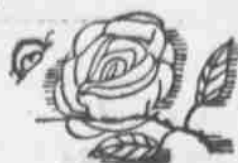

Premier Lloyd George resisted this conclusion. Premier Nitti inclined toward the British Prime Minister's view, and the matter rests there for the present. A compromise may take the form of an ultimatum to Germany, with the threat of applying effective compulsion without indicating what form the compulsion might take.
